

Coal mining mud pump bearing

Mud Pump is also a popular concept of a wide range of pumps, different areas, habits, and ultimately the pump type will not be the same, the term described in the mud pump is the most sense of a pump : Oil drilling in the field of application of the mud pump. In fact, the sewage pump, slurry pump and some non-clear water pump and mud pump in the name also has a common time. This entry is intended for readers to read the mud pump in the field of drilling.

In the commonly used circular drilling, it is the surface rinse medium ?? water, mud or polymer rinse liquid under a certain pressure, through the high-pressure hose, faucet and drill rod center hole directly to the bottom of the drill to achieve Cooling the drill bit, cutting the cuttings down and conveying them to the surface.

Commonly used mud pump is piston or plunger type, driven by the power machine crankshaft crankshaft through the cross head and then drive the piston or plunger in the pump cylinder to do reciprocating motion. In the inhalation and discharge valve under the alternating effect, to achieve the purpose of pressure and circulation rinse solution.
